MỤC TIÊU NGHỀ NGHIỆP

I am to leverage my skills in mobile and web development to build innovative and user-centric applications. With a strong foundation in React Native, ReactJS, and backend technologies, my goal is to contribute to a dynamic team where I can grow professionally, take on challenging projects, and continuously improve my technical expertise while delivering impactful solutions.

KINH NGHIÊM LÀM VIỆC

Make Famous App

01/2021 - 04/2022

REACT NATIVE DEVELOPER

· S24 App

Team size: 5

My responsibilities: Built an intuitive and user- friendly interface using React Native, ensuring a smooth and efficient user experience. Optimizing source code Use firebase for Auth (login facebook, login Google)

Use firebase for push notification

Deploy application to GooglePlay and Apple store

Used technologies: React native, Mobx, PHP laravel, MySQL, Git, Restful API, socketIO, Firebase.

• REAL ESTATE APP

Team size: 7

My responsibilities: Built an intuitive and user- friendly interface using React Native, ensuring a smooth and efficient user experience. Optimizing source code

Use firebase for Auth (login facebook, login Google)

Use firebase for push notification

Deploy application to GooglePlay and Apple store\

Used technologies: React native, Mobx, PHP laravel, MySQL, Git, Restful API, socketIO, Firebase.

· GYM-X Studio

Team size: 4

My responsibilities: Built and improved user interfaces using React Native, ensuring a smooth and user- friendly experience.

Use firebase for Auth (login facebook, login Google)

Use firebase for push notification

Deploy application to GooglePlay and Apple store

Used technologies: ReactJS, React Native, ReduxSaga, MongoDb, Nodejs, HTML, CSS, Redis, Git, Firebase

REACT NATIVE DEVELOPER

· JOG2E

Team size: 4

Pi tech

05/2022 - 05/2023

My responsibilities: Built and improved user interfaces using React Native, ensuring a

smooth and user- friendly experience.

Use firebase for Auth (login facebook, login Google)

Use firebase for push notification

Link data from health apps

Deploy application to GooglePlay and Apple store

Used technologies: React Native, ReduxSaga, MongoDb, Nodejs, HTML, CSS, Redis, Git, SocketIO, Firebase

· Pi Invesment Fund

Team size: 8

My responsibilities: Built and improved user interfaces using React Native, ensuring a smooth and user- friendly experience.

Use firebase for Auth (login facebook, login Google)

Use firebase for push notification

Deploy application to GooglePlay and Apple store

Used technologies: React Native, Redux Tool kit, MongoDb, Nodejs, HTML, CSS, Redis, Git, SocketIO, Firebase

Booking OFA

Team size: 7

My responsibilities: Built and improved user interfaces using React Native, ensuring a smooth and user- friendly experience.

Use firebase for Auth (login facebook, login Google)

Use firebase for push notification

Deploy application to GooglePlay and Apple store

Used technologies: React Native, Redux Tool kit, MongoDb, Nodejs, HTML, CSS, Redis, Git, SocketIO, Firebase

VINA FARM

Team size: 4

My responsibilities: Built and improved user interfaces using React Native, ensuring a smooth and user- friendly experience.

Use firebase for Auth (login facebook, login Google)

Use firebase for push notification

Deploy application to GooglePlay and Apple store

Used technologies: React Native, Redux Tool kit, MongoDb, Nodejs, HTML, CSS, Redis, Git,

REACTS NATIVE DEVELOPER

Lái xe hộ

Team size: 8

My responsibilities: Built and improved user interfaces using React Native, ensuring a

smooth and user- friendly experience.

Use firebase for Auth (login facebook, login Google)

Use firebase for push notification

Deploy application to GooglePlay and Apple store

Used technologies: React Native, Redux Tool kit, MongoDb, Nodejs, HTML, CSS, Redis, Git, SocketIO, Firebase

FULL STACK DEVELOPER

· Photo time Membership

Team size: 1

My responsibilities:

Frontend: Built and improved user interfaces using React Native, ensuring a smooth and user-friendly experience.

Use firebase for Auth (login facebook, login Google)

TasVN

6/2023 - 8/2023

Photo Time

08/2023 - now

Use firebase for push notification Enroll Apple Developer program for organization Deploy application to GooglePlay and Apple store

Backend: Developed and managed backend service using Nodejs Express Used technologies: React Native, Redux Tool kit, MongoDb, Nodejs, HTML, CSS, Redis, Git, SocketIO, Firebase

PHOTO TIME LANDING PAGE

Team size: 1

My responsibilities: Built and improved user interfaces using ReactJS, ensuring a smooth

and user- friendly experience.

Used technologies: NextJS, HTML, CSS

CÁC KỸ NĂNG

React Native

Convert UI designs to cross-platform mobile code (iOS & Android)

Integrate RESTful APIs, WebSockets, and Firebase

Implement Firebase Authentication, Firestore, and FCM

Set up Apple Developer and Google Play Developer accounts

Upload apps to Google Play and Apple App Store

Manage app state using Redux for efficient data flow and state management

ReactJS

Convert UI designs to Website code

Integrate RESTful APIs, WebSockets, and Firebase

Implement Firebase Authentication, Firestore, and FCM, Firebase hosting

Manage app state using Redux for efficient data flow and state management

NodeJS

Develop RESTful APIs using Node.js and Express

Implement middleware, routing, and error handling in Express

Build scalable APIs with NestJS using modular structure and dependency injection

Integrate JWT authentication and authorization in APIs

Connect APIs with SQL/NoSQL databases using ORM/ODM (TypeORM, Mongoose)

Implement WebSocket
